

**Tracking the virus (continued).**

Use data from the tables to sketch the graphs of each strain of the zombie virus.

**Extension.**

What if a zombie entered Century Link Stadium in Seattle, WA? The capacity of the stadium is 67,000 people.

**Estimate how many minutes it will take for the whole Century Link stadium to be infected IF...**

- The original strain A zombie walks into the stadium. \_\_\_\_\_
- One strain B zombie walks into the stadium. \_\_\_\_\_

**Now, determine how many minutes it will take for the whole Century Link stadium to be infected IF...**

Strain A zombie walks into the stadium	Strain B zombie walks into the stadium
